

# Library

## (Academic Year 2022-23)

To create world class library by creating state-of-art infrastructure and containing books of eminent writers in different fields of academia with special emphasis on digital techniques and access to the students and other users thereof. In India, the tradition of learning has been strong since ancient times and libraries have always been necessary appendages of learning. These libraries, however, valuable as they were, were not instruments of mass education and, therefore, they did not form a part of the public library structure of the country.
