

Internal Training (Managerial/Soft/ Communications Skills, etc.)

(Academic Year 2022-23)

The central theme of training is the overall development of the students' personalities, with necessary emphasis on communication skills and reasoning abilities. To have a real-life experience, mock interviews and group discussions are conducted with internal and external experts on the panel. These sessions are intended to enable students to enhance their interpersonal skills, leadership qualities, conflict management abilities, decision-making and problem-solving skills.
